

Доступ к декларации соответствия ЕС можно получить на support.rawpol.com.

В случае потери актуальной инструкции в результате изменений в законодательстве либо воздействия других факторов, необходимо скачать новую версию. Актуальные версии инструкций доступны на веб-странице rawpol.com или support.rawpol.com.
Настоящая инструкция обозначена версией в.А.С2NP1.119, где А.С2NP1 указывает идентификатор группы товаров и 119 – очередной номер версии. Если знаки описаны в инструкции не то же самое как указанные на товаре или на упаковке, это означает, что у вас возможно быть инструкция к другой партии или другому товару. Если инструкция истекает/у /неправильная к обладаемой партии товара, необходимо обязательно приобрести текущую/ правильную инструкцию и ознакомиться с его содержанием. **Не пытайтесь работать, не зная текущей / правильной инструкции использования!**

НАСТОЯЩАЯ ИНСТРУКЦИЯ МОЖЕТ МНОГОКРАТНО КОПИРОВАТЬСЯ С ЦЕЛЮЮ ОЗНАКОМЛЕНИЯ С ЕЕ СОДЕРЖАНИЕМ ВСЕХ ПОЛЬЗОВАТЕЛЕЙ ПРОДУКТА.

В случае каких-либо сомнений следует связаться со специалистом по вопросам безопасности труда, производителем либо уполномоченным представителем производителя для их выяснения.

Легенда о образце маркировки:
[A] – товарный код,
[B] – размер,
[C] – Номер нормы и пиктограмма, обозначающая категорию угрозы (EN388 – механическая угроза),
[D] – знак соответствия,
[E] – перед использованием ознакомиться с инструкцией,
[F] – идентификационный знак производителя,
[G] - Уровни эффективности – EN388: 3 – Стойкость к истиранию (от 0 до 4).
1 – Стойкость к прорезу тестирувана с помощью "coupe" теста (от 0 до 5).
4 – Сопротивление раздираанию (от 0 до 4).
2 – Прочность на прокалывание (от 0 до 4)
(Внимание: Перчатки, отвечающие требованиям относительно прочности на прокалывание, могут не подходить для защиты от острых предметов, таких как иглы для шприцов).
Х - Стойкость к прорезу тестирувана с помощью тест TDM EN ISO 13997: 1999 (от А до F).
Х - Указывает на то, что перчатки не была исследована либо, что метод не соответствует данному образцу или материалу, тем самым перчатка не предназначена для применения в данной области. Представленные уровни эффективности касаются перчаток новых, нестиранных и не прошедших восстановительного процесса. Уровни эффективности получаются на основании тестов, произведенных в соответствии с условиями, определенными в касающихся их нормах.
[H] – знак соответствия Украины,
[I] – знак соблюдения Таможенного Союза,
[J] – линия продукта,
[K] - уровень ловкости.

Объяснение использованных символов:
CODE – товарный код,
NUMBER – артикульный номер,
SI-ZES – доступный диапазон размеров,
COLOURS – доступная гамма цветов,
PACKING – количество продукта в наименьшей упаковке/количество в ящике,
STANDARDS – стандарты,
^[1] – номер партии,
^[2] – Дата производства,
