This product belongs to the Personal Protective Equipment (PPE), defined in the Regulation (EU) 2016/425 of the European Parliament and of the Council and meets the guidelines of that regulation and the PPE Regulation (EU) 2016/425 as brought into UK Law and amended. It was classified to category I – only for the minimal risks.  
**Standards:** EN ISO 13688:2013+A1:2021 „Protective clothing. General requirements”; EN ISO 12947-2:2016 „Textiles. Determination of the abrasion resistance of fabrics by the Martindale method. Part 2: Determination of specimen break down”; Internal technical specification of the manufacturer: RS26401:2018, RS26101:2019.  
**Product/description:** Protective clothing. Detailed characterisation of the product is provided in rawpol.com.  
**Intended use:** Protection against the following minimal risks: superficial mechanical injury that do not need medical attention, e.g. scratches resulting from bumping into fixed obstacles and gardening; atmospheric conditions that are not of an extreme nature, i.e. cool temperature higher than -5°C at medium work intensity. Working time depends on many factors, such as wind strength or individual user's characteristics or work environment, so it is not possible to specify it precisely. More information about the conditions in which the tests were conducted can be obtained at rawpol.com or directly from a manufacturer, an authorized representative of the manufacturer or an authorized representative of the manufacturer.  
According to conditions described in the norms/specifications to which they apply. The product provides protection against the above risks and it is intended for use in the environments in which they occur. Please always carry out a risk assessment in a given work environment to verify whether the product provides protection against all risks available in this environment.  
**Restrictions:** Do not use the product other than in accordance with the intended purpose, recommendations in the instruction, in average conditions and high-risk (for which it is appropriate to apply measures to protect individual category II and III) and when the type of work is related to the risk of the product being caught up by moving objects, e.g. moving parts of machines and such PPE being caught is associated with a health or safety hazard. This product does not protect parts of the body, which it is not open to. Protection against risks and dangers not mentioned in the instructions is not guaranteed.

**Use and operation:** This product is personal protection of simple design, the operation efficiency level of which in relation to minimal risks can be assessed by the user. The level of protection was obtained on the basis of tests carried out on the product. This product is intended to be worn. This product must be put on the body. If the product has any fasteners, they need to be fastened/zipped. If the product has components to tie, they need to be tied. It should be noted that the product lies comfortably and gives freedom of movement (to do this, match all kinds of adjustments, if any). In order to remove the product, first unfasten/unzip all previously fastened/zipped elements and untie previously tied elements, if any. If the product is worn together with other individual protection equipment, note that total protective functions depending on the intended use are guaranteed. In any event, requirements shall take precedence. Before use, the use shall check, on his/her own responsibility, that the product is suitable to the operations, is complete and whether all protective functions are guaranteed. Check whether there are any damages, which could have a negative impact on safety features (e.g. cracks, holes, broken seams, damaged fasteners, abrasions). If there is any damage, before using the product, the user should contact the manufacturer or an authorized representative of the manufacturer or the authorised representative of the manufacturer), and if this is not possible, it must be replaced. When operation, pay attention to keep protective functions. Lost protection means that the product has been worn. Do not use a damaged or worn out product. The product does not have additional equipment and spare parts. The exception are trousers with knee protector pockets. Trousers of this type can be used with OKNINGBEE, ONDUMBLEDOR knee protectors and other with the same parameters. Instruction for use of knee protectors:

- Fold the knee protector, insert it into the pocket in accordance with the mark on the knee protector, and then spread it in order to adhere well to the knee.
  - If the pocket has a fastener e.g. Velcro, first unclip it and after placing the knee protector, it should be fastened.
  - To bring the knee protector out, open the fastener (if present), fold the knee protector and pull it out of the pocket.
- Before using the knee protectors, read the instruction of use for knee protectors.
