The member of REIS GROUP

v.B.C1.C109

EN INSTRUCTION AND INFORMATION FOR THE USERS
Manufacturer: RAW-POL STEFANKI SPÓŁKA KOMANDYTOWO-AKCYJNA, Julianów 50, 96-200 Julianów, Poland.

This product belongs to the Personal Protective Equipment (PPE), defined in the Regulation (EU) 2016/425 of the European Parliament and of the Council and meets the guidelines of that regulation and the PPE Regulation 2016/425 as brought into UK Law and amended. It was classified to category I – only for the minimal risks.

Standards: EN ISO 13688:2013+A1:2021 „Protective clothing. General requirements”; EN ISO 12947-2:2016 „Textiles. Determination of the abrasion resistance of fabrics by the Martindale method. Part 2: Determination of specimen break down”; Internal technical specification of manufacturer 26401:2018.

Product/description: Protective clothing. Detailed characterisation of the product is provided in rawpol.com.
Intended use: Protection against the following minimal risks: superficial mechanical injury that do not need medical attention, e.g., scratches resulting from bumping into fixed obstacles and gardening. The level of protection was obtained on the basis of tests carried out according to conditions described in the norms/specifications to which they apply. The product provides protection against the above risks and it is intended for use in the environments in which they occur. Please always carry out a risk assessment in a given work environment to verify whether the product provides protection against all risks available in this environment.

Restrictions: Do not use the product other than in accordance with the intended purpose, recommendations in the instruction, in average conditions and high-risk for which it is appropriate to apply measures to protect individual category II and III and where the type of work is related to the product being caught by moving objects, e.g., moving parts of machines and such PPE being caught is associated with a health or safety hazard. This product does not protect parts of the body, which it does not cover. Protection against risks and dangers not mentioned in the instructions is not guaranteed.

Use and operation: This product is personal protection of simple design, the operation efficiency level of which in relation to minimal risks can be assessed by the user. The personal liability of the user is determined to ensure protective function of the product. This product is intended to be worn. This product must be put on the body. If the product has any fasteners, they need to be fastened/zipped. If the product has components to tie, they need to be tied. It should be noted that the product lies loosely and gives freedom of movement (to do this, match all kinds of adjustments, if any). In order to remove the product, first unfasten/unzip all previously fastened/zipped elements and untie previously tied elements, if any. If the product is worn together with other individual protection equipment, note that total protective function depends on the intended use, quality and maintenance of any event, requirements shall take precedence. Before use, the user shall check, on his/her own responsibility, that the product is suitable to the operations, is complete and whether all protective functions are guaranteed. Check whether there are any damages, which could have a negative impact on safety features (e.g., cracks, holes, broken seams, damaged fasteners, abrasions). If there is such a negative impact, before use, return to the original good condition of the product (do this, contact the manufacturer or the authorized representative of the manufacturer), and if this is not possible, it must be replaced. When operation, pay attention to keep protective functions. Lost protection means that the product has been worn. Do not use a damaged or worn out product. The product does not have additional equipment and spare parts. The exception are trousers with knee protector. Trousers of this type can be used with ONKINGBEE, ONDUMBLEDD knee protectors and other with the same parameters. Instruction for use of knee protectors:

1. Fold the knee protector, insert it into the pocket in accordance with the mark on the knee protector, and then spread it in order to adhere well to the knee.
2. If the pocket has a fastener e.g. Velcro, first unclinch it and after placing the knee protector, it should be fastened.
3. To bring the knee protector out, open the fastener (if present), fold the knee protector and pull it out of the pocket.

Before using the knee protectors, read the instruction of use for knee protectors. Materials used to make the product, should not adversely affect the user's hygiene or health. However, any substance contained in the material of the product or being a component of the product can be allergen, such as cotton, leather, metal parts, latex, stains, etc. It is recommended that sensitive persons test the product or seek for medical advice before use.

Size: The product should be of sufficient size, which must be adjusted before starting operation. The product size is provided directly on the product or on internal label or on packaging. Available size range is specified in the field SIZES. Full size range is provided in the tables available on rawpol.com

Cleaning, maintenance and disinfection: Recommendations for maintenance, cleaning are provided on the label of the product. The user should use generally available cleaners, preservatives for each type of material, which does not have negative impact on the user's body. The products, which do not have sewn-in the maintenance, cleaning label, must only be cleaned with damp, soft cloth, dry flat.

It is not recommended to use any additional methods for disinfection and disinfectants, as this may have impact on reducing levels of protection.

The pictograms for maintenance, cleaning, which can be applied, along with an explanation.
W₁ – Hand wash max 40°C, W₂ – Wash in temp. to 30°C, W₃ – Wash in temp. to 40°C, W₄ – Wash in temp. to 95°C, X₁ – Do not bleach/chlorine, X₂ – Do not tumble dry, I₁ – Ironing temperature 200°C, I₂ – Ironing temperature 150°C, D₁ – Ironing temperature 110°C, D₂ – Do not iron, D₃ – Do not dry clean.

Storage: The product should be stored at the appropriate temperature, in dry and well ventilated place. Too high humidity of air, too high or low temperature or intense light can adversely impact the product quality. Manufacturer accepts no liability for the quality of the product stored contrary to the instructions. This may result in a lowering of the product protection level.

Type of packaging: It is recommended to distribute (including transport) the product in the package with cardboard or plastic film. Loading, transport and unloading should take place in environment protecting against splashes, dirt and damage.

Product durability can be estimated on the basis of the product wear and tear. Considering various use intensities and environmental factors, such as sunlight, rain, etc., it is not possible to provide a precise span. The product retains its protective properties up to the moment of a damage which cannot be repaired without decreasing its

protective level. Occurrence of mechanical damages means that the product should be repaired or immediately withdrawn from use. With proper warehousing the storage time of the product can be up to 10 years from the date of production (in the case of clothing containing polyurethane up to 6 years). This period may be extended by performing the appropriate tests.

Date of manufacture is indicated on the packaging or the product. This is with the batch number, e.g. 200120191234, explanation: the third and fourth digits indicate month of manufacturing, and the subsequent four digits identify year of manufacturing. Other digits together with the above identify the number of batch. The access to the EU declaration of conformity can be accessed at support.rawpol.com.

In the event that this manual is out-of-date because of changes in law or other factors, download the new version. Current instructions are available on the rawpol.com or support.rawpol.com. This manual is marked with version v.B.C1.C109, where B.C1.C is the identifier of product group and 109 the subsequent version number. Before starting operation, verify having current/appropriate operation manual for the product, read this manual carefully and keep it for duration of the use of protection. If the labels explained herein are not the same as labels on the product or on the packaging, this means that the manual is for other batch or other product. In this case, it is essential to contact the person who made the manual available, or contact the manufacturer or the authorized representative of the manufacturer, in order to obtain a document to the batch, which you have. It is essential to verify having current/appropriate manual for the possessed product. If the manual is out-of-date or inappropriate to the batch, it is essential to obtain current/appropriate manual and refer to its contents. **Do not start operation with the manual that is out-of-date or inappropriate to the batch.** THIS MANUAL CAN BE REPEATEDLY COPIED IN ORDER ANY USER CAN READ THE INFORMATION INCLUDED HEREIN.

In any doubts please contact with safety expert, the manufacturer or the authorized representative of the manufacturer available on support.rawpol.com.

Information on the composition of the product and its packaging is available on rawpol.com.

DE ANLEITUNG UND INFORMATIONEN FÜR DIE BENUTZER

Hersteller: RAW-POL STEFANKI SPÓŁKA KOMANDYTOWO-AKCYJNA, Julianów 50, 96-200 Julianów, Polen.

Dieses Produkt gehört zur persönlichen Schutzausrüstung (PSA), die in der Verordnung (EU) 2016/425 des Europäischen Parlaments und des Rates und erfüllt die Anforderungen dieser Verordnung und PSA-Verordnung 2016/425, wie sie in britisches Recht übernommen und geändert wurde. Es wurde in der Kategorie I, d.h. nur für minimale Risiken, eingestuft.

Standards: EN ISO 13688:2013+A1:2021 „Schutzkleidung. Allgemeine Anforderungen”; EN ISO 12947-2:2016 „Textilien. Bestimmung der Abriebfestigkeit von Geweben nach Martindale. Teil 2: Bestimmung des Probendurchbruchs”; Interne technische Spezifikation des Herstellers: RS26401:2018.

Produkt/Beschreibung: Schutzkleidung. Die detaillierte Produktspezifikation ist der Website rawpol.com zu entnehmen.

Zweckbestimmung: Dieses Produkt zählt zur persönlichen Schutzausrüstung Es ist zum Schutz des Benutzers nur vor minimalen Risiken vorgesehen, wie z.B.: oberflächliche mechanische Verletzungen, die keine medizinische Hilfe erfordern, z.B. Kratzer, die durch das Auftreten auf permanente Hindernisse verursacht oder während der Gartenarbeit verursacht wurden. Das Schutzniveau wurde auf der Grundlage von Tests erreicht, die gemäß den Bedingungen durchgeführt wurden, die in den Normen/Spezifikationen, auf die sie sich beziehen, beschrieben sind. Das Produkt bietet Schutz vor den oben genannten Risiken und ist für den Einsatz in der Umgebung bestimmt, in der es auftritt. Bitte führen Sie in einer gegebenen Arbeitsumgebung immer eine Risikobewertung durch, um zu überprüfen, ob das Produkt Schutz gegen alle in dieser Umgebung verfügbaren Gefahren bietet.

Einschränkungen: Verwenden Sie das Produkt nicht anders als in Übereinstimmung mit dem beabsichtigten Zweck, Empfehlungen in der Anweisung, in durchschnittlichen Bedingungen und mit hohem Risiko (für die es am geeignetsten ist, Maßnahmen zum Schutz der einzelnen Kategorie II und III anzuwenden) und wenn die Art der Arbeit mit dem Risiko des Verhaltens des Produkts mit sich bewegenden Objekten verbunden ist, beispielsweise beweglichen Teilen von Maschinen, die mit einer Gesundheits- oder Sicherheitsgefährdung verbunden sind. Dieses Produkt schützt nicht Teile des Körpers, die es nicht bedeckt. Der Schutz vor Risiken und Gefahren, die nicht in der Anleitung erwähnt sind, ist nicht gewährleistet.

Nutzung und Bedienung: Das Produkt gilt als persönliche Schutzausrüstung mit einfacher Konstruktion, deren Wirkungsgrad gegenüber minimalen Risiken der Benutzer selbst einschätzen kann. Die Schutzfunktion des Produkts hängt vom Verantwortungsbereich des Benutzers ab. Dieses Produkt zum Tragen vorgesehen. Das Produkt muss angepasst werden. Sollte das Produkt über irgendwelche Verschlüsse verfügen, so sind diese zuzuknöpfen/zuzuschließen. Verfügt das Produkt über Elemente zum Binden, so müssen diesen gebunden werden. Es ist darauf zu achten, dass das Produkt bequem anliegt und eine Bewegungsfreiheit ermöglicht (zu diesem Zweck sind etwaige Verstellmöglichkeiten, falls vorhanden, entsprechend einzustellen). Um das Produkt abzunehmen, müssen zunächst sämtliche zuvor zugeknöpfte/zugeschlossene Verschlüsse aufgeklopft bzw. freigeschoben werden. Falls vorhanden, sind die Elemente des Produkts zusammen mit anderen persönlichen Schutzmitteln getragen, so ist darauf zu achten, dass die Gesamtschutzfunktion, je nach Verwendungszweck, garantiert sind. In jedem Fall haben die Anforderungen Vorrang. Vor dem
